

User Manual

Welcome to the TweetClean© manual, in this guide we will teach you how to use the app. Please follow the numbered instructions along with the accompanying pictures.

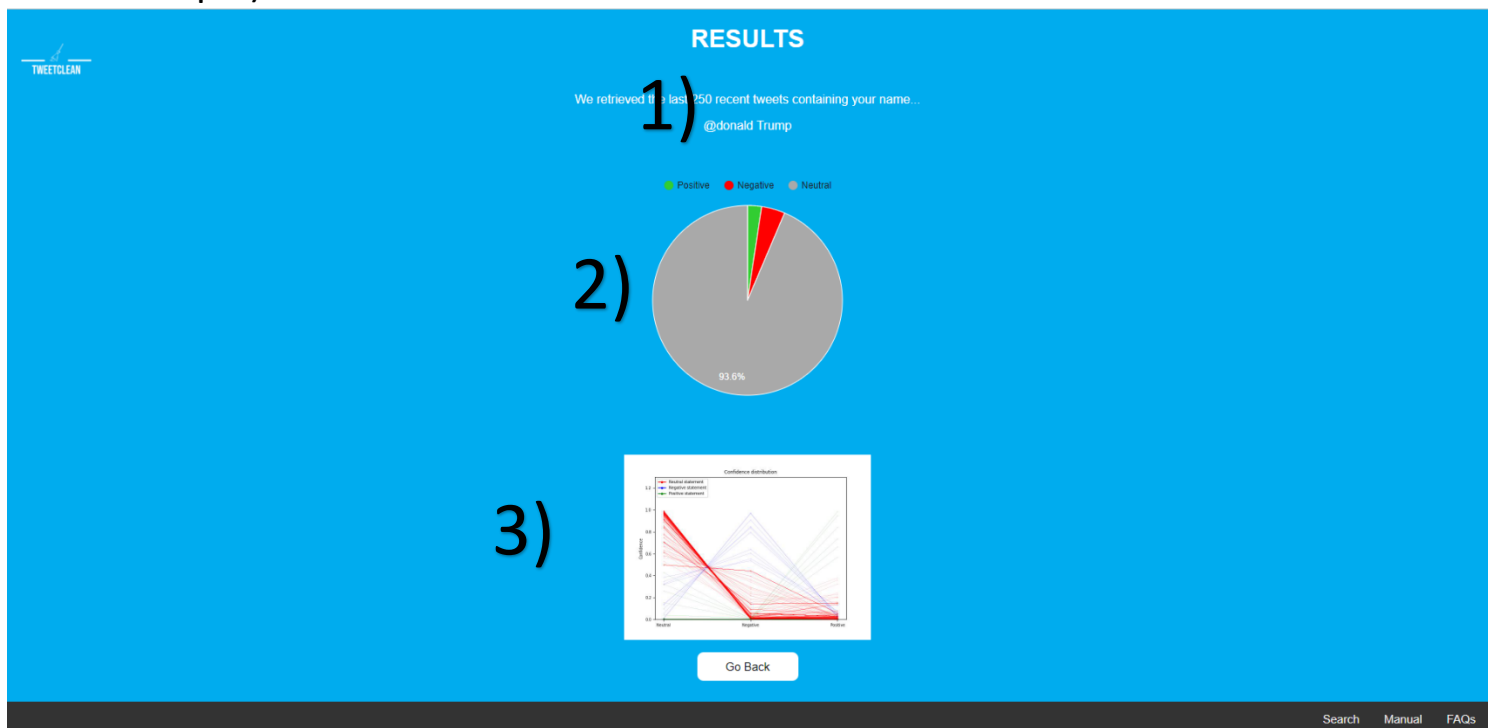

How to use

Step 1)

While on the main page, click on the search bar and enter the full name of an individual that you would like get a rating of. Then click on the “Go” button to get a result:

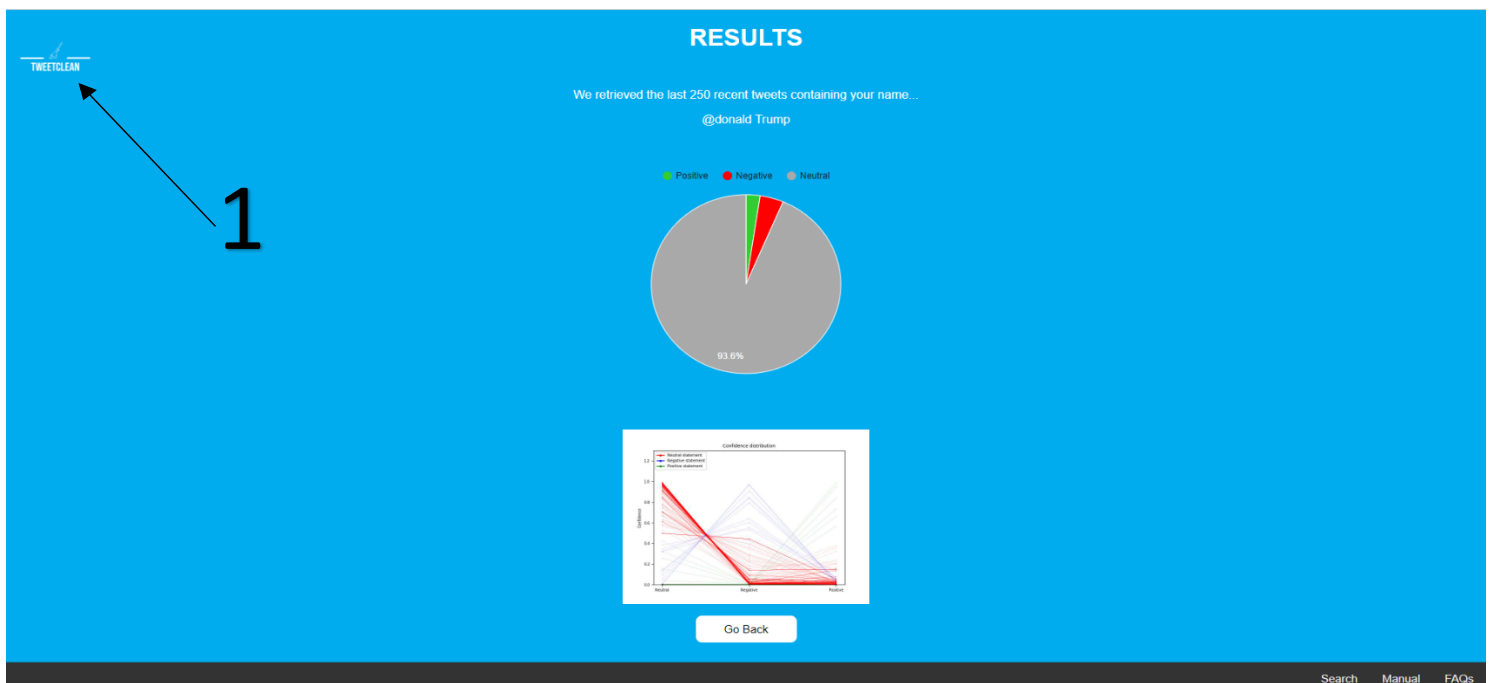

Step 2) View Results:

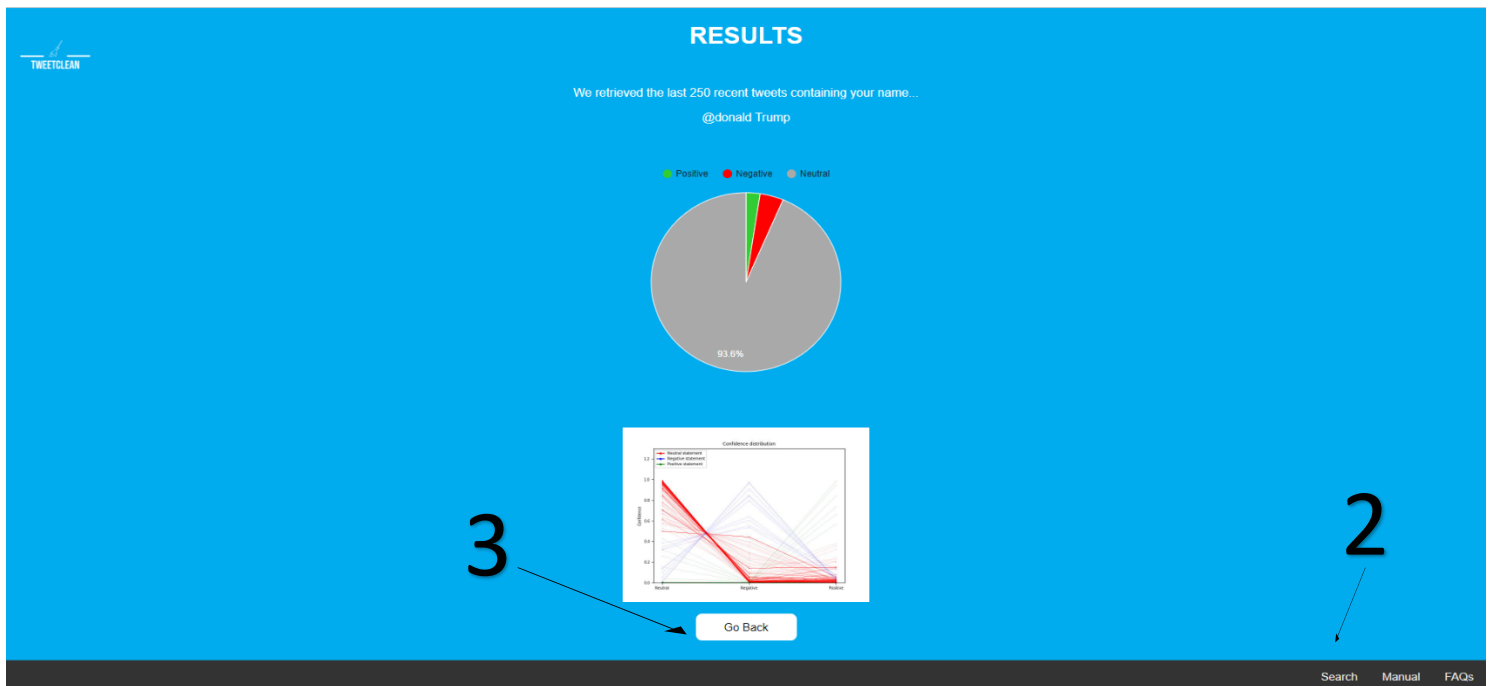

- 1) The number of tweets that our system has searched through
- 2) A pie chart showing the results of your search
- 3) A confidence distribution graph , giving a more detailed result

Step 3)

If you want to search for another name, then 1) click on the TweetClean© logo at the top of the page 2) click on the search button in the bottom right corner of the page or 3) click on the “Go Back” button and this will take you back to search :

And that's it, it's that simple! Continue reading for additional information.

Navigation

There are 3 pages you can navigate between using the navigation buttons:

Search:

Search Manual FAQs

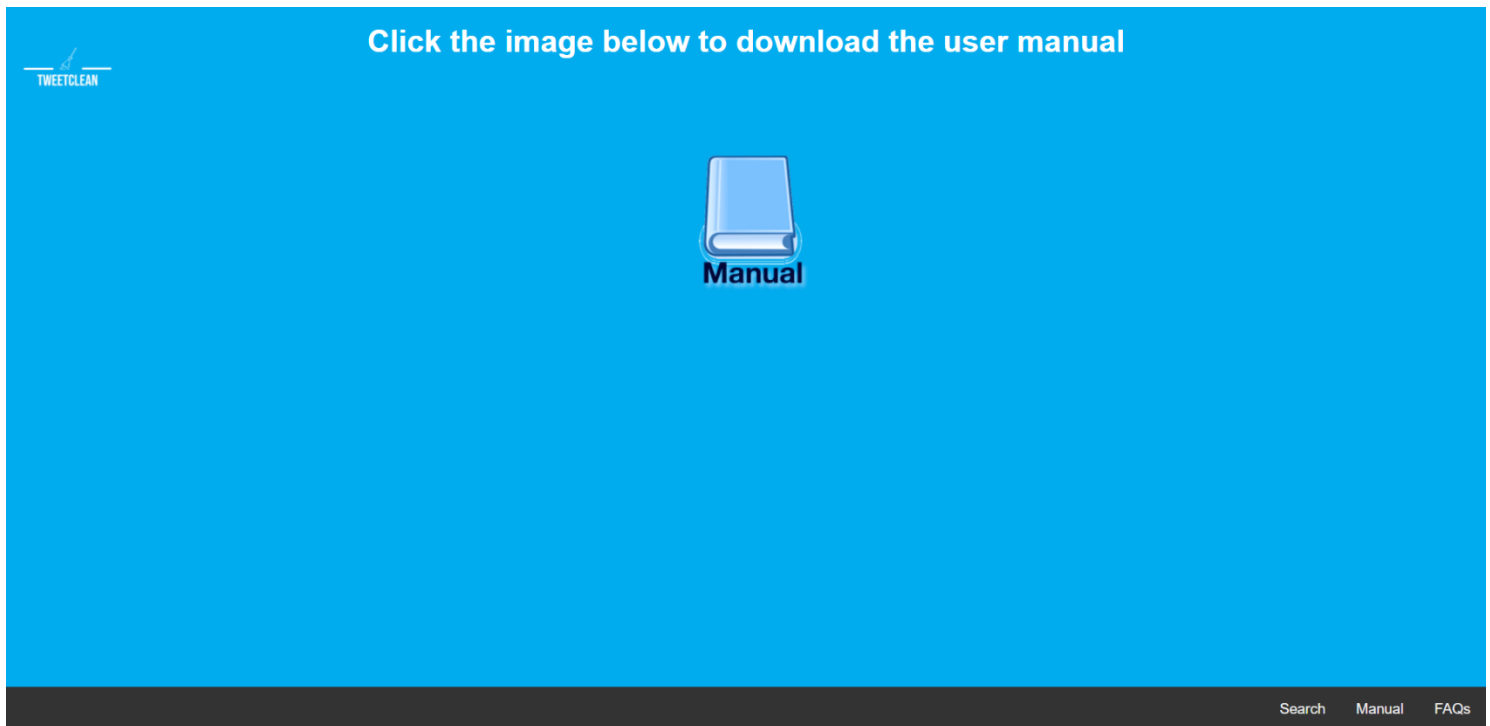

Clicking on the “Search” button will take you back to the home page that contains the search bar used for finding someone’s result:

Manual:

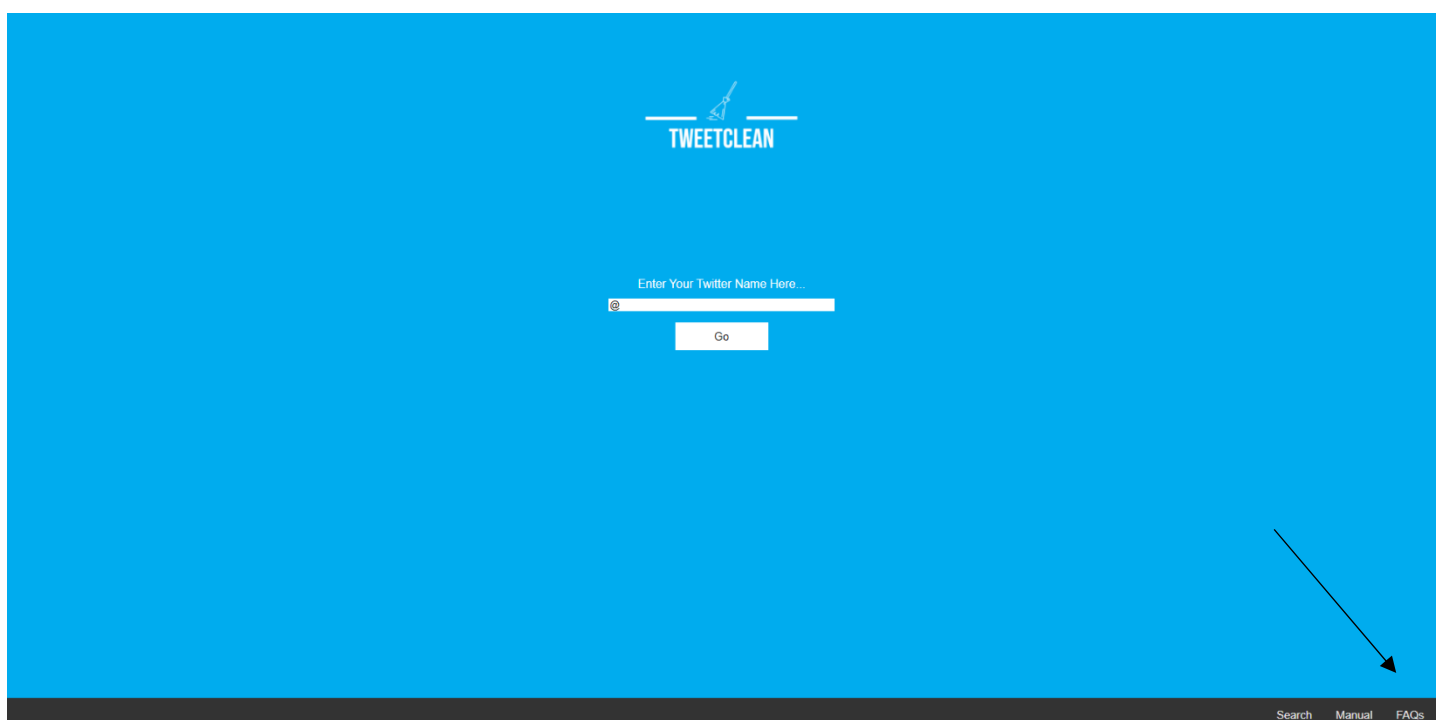

Clicking on the Manual button will take you to the “Manual” page where you will be able to download a copy of this manual:

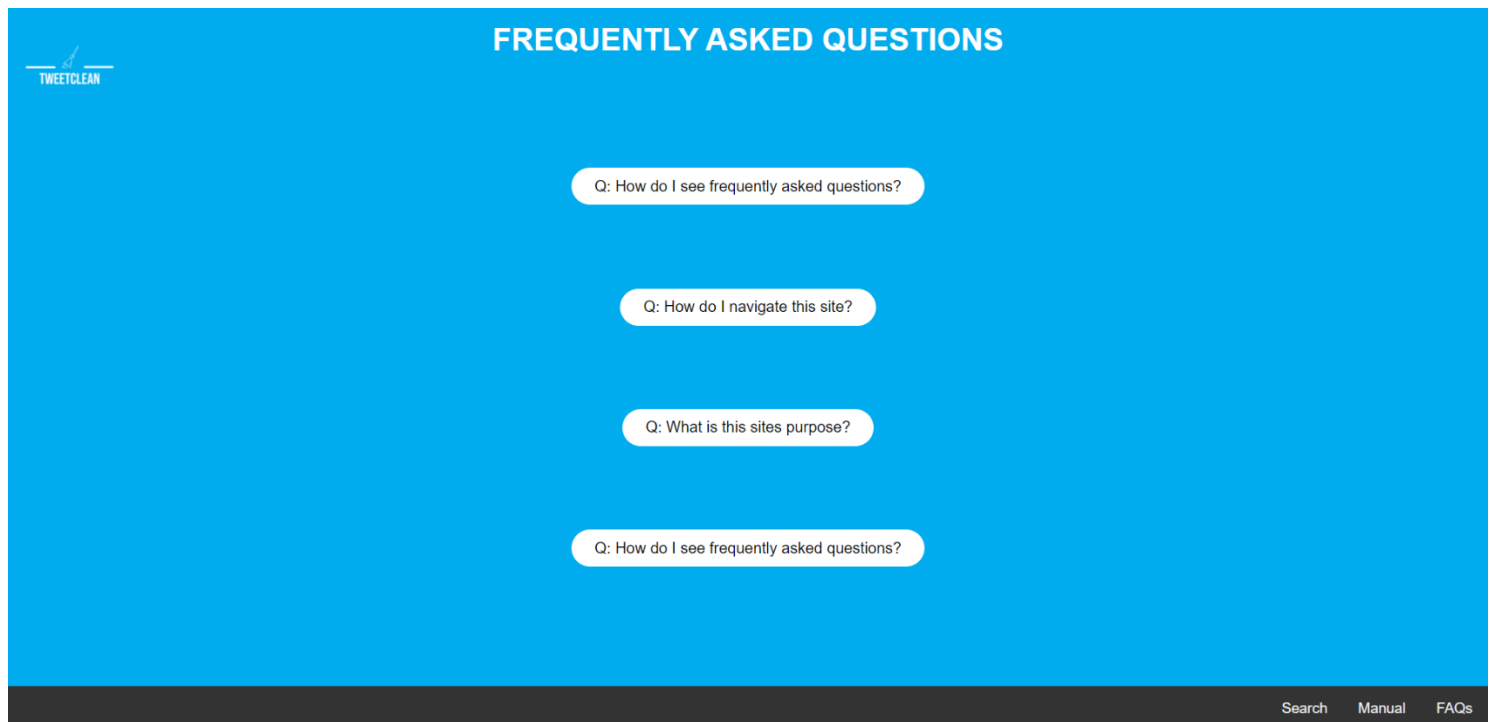

Clicking on the book above “Manual” will download a copy of this manual to your device.

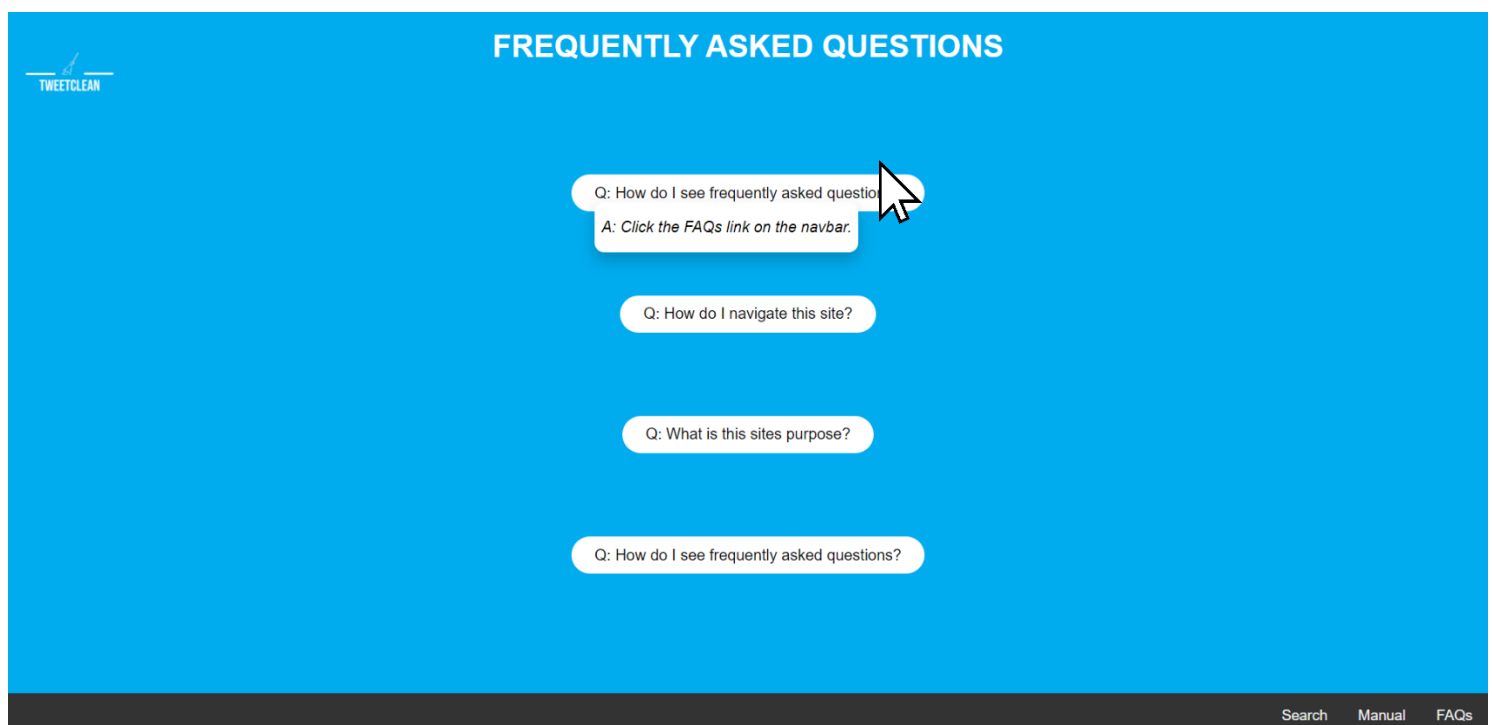

FAQs:

Clicking on the “FAQs” button will take you to the Frequently asked questions page:

To see the answers, simply hover your mouse cursor over the question you want the answer to:

At any point you want to return to the home/search page then simply click on the TweetClean© logo:

There is also a chance that an error message may appear instead of a result. This could happen for a couple of reasons:

1. The name entered does not match any of the people on our database.
2. The user that is being searched may have no data on them to use in our calculations.
3. The user that is being searched has a private twitter account.
